

OGINGA JUMA ALFRED

SOFTWARE DEVELOPER

I am an expert at applying my programming skills to solve complex challenges since I am pro-efficient with object oriented programming languages,as well as algorithms and data structures.

I come with a track record of continually improving the way software works, it's applications solution, manage and operate IT products.

I normally enjoys collaborating with colleagues and building cultures of cross-functional working to provide a greater platform for the success of projects.

PROFICIENCY

CAREER

FULL STACK DEVELOPER

SOFTWARE DESIGNER

POSTER AND LOGO DESIGN

DEVELOPED SOFTWARES

School management system

The system has been designed in a way that it be used to manage both university, college and high school study instituions.

Gymn management system

This is a ready system that can be used to manage a gymn operations site

EXPERIENCE

2023

Acquired basic designing skills in Figma,Adobe XD and Canva.It is from these point where I started to design my websites,logos and icons before implementing them into codes.

Advanced my knowledge in javascript,read basics react and jquery and use the skills gained to build voting web app and upgraded the calculator, Todo list and gymn management and operations web pages.

Currently am developing a chat web app using web socket, javascript,HTML and CSS. The app will be live before April

2022

Advanced my knowledge in HTML andCSS,read basic javascript and applied the skills gained to build my cv as a web page,gymn management and operations web page,calculator and Todo list web page.

At this point I felt my pro-efficiency in HTML and CSS and require more projects to do.

2021

Read basic HTML and CSS and applied the skills gained in building Recipes and Log in web pages.

HOBBIES

1. Coding and programming
2. Listening music
3. Travelling
4. Collaboration and team work
